"Call me by your name" is one of my favourite movies, so when I discovered there are no sheets for this fabulous song, I had to make them myself. Enjoy :)

@ Anna Szydelko, i was wondering in the first piece left hand measure 1 it goes from F to A and i was wondering how do you reach that far. Thats an octave plus two notes.

You have to use the pedal and make the jump. I jump to finger four so I can reach all the notes from that position. It's not too bad once you practice it

I don't actually reach that far, you have to jump with your hand! It's kind of hard but you can pull it off with some practice, good luck :)
